A Better Way To Connect Your Business

PAXIO was founded in 2003, with a sole focus on business connectivity, voice solutions and managed network services. Grow your network rapidly and securely. Add enterprise voice features. Our dedicated Internet access and managed services are fully managed by our local Bay Area team. Get live, local support your business deserves.

Flexible Network Options

Managed fiber, dedicated Ethernet, business WiFi and backup. Add direct access to your cloud service provider, for high performance connectivity

24/7 Monitoring and Support

Our local team monitor network performance and support your services 24-7. Speak to a live tech every time!

Professional Service Availability

99.999% service availability, backed by our Service Level Agreements for fiber and Ethernet.

“

PAXIO provides our business with reliable, high speed fiber internet. PAXIO is always willing to answer our questions and is vital to our business operations. Highly recommended business ISP!”
